POSTDOCTORAL POSITION
IN THEORETICAL CHEMICAL PHYSICS
At the University of California at Irvine

LOCATION: Department of Chemistry, University of California at Irvine

DURATION: One year with a possible extension to a second year

STARTING DATE: Flexible

RESEARCH TOPICS: Design and simulation of multidimensional femtosecond spectroscopic probes of structure and electronic and vibrational dynamics of biomolecules and protein folding; Single-molecule spectroscopy; Developing time-dependent density matrix/density functional algorithms for electronic structure and excitations; Many-body theory of nonlinear optical processes in dendrimers, chromophore aggregates, organic and semiconductor nanostructures; Nonlinear x-ray spectroscopy molecules; Biological Electron and Energy Transfer.

TO APPLY: Send a curriculum vitae, publication list and arrange for two or three letters of recommendation to be sent to:

Before August 15, 2003:
Professor Shaul Mukamel
Department of Chemistry
University of Rochester; P.O. Box 270216
Rochester, New York 14627-0216
Telephone: (585) 275-3080
Fax: (585) 506-0205
Email: mukamel@chem.rochester.edu
Web site: http://mukamel.chem.rochester.edu

After August 15, 2003:
Professor Shaul Mukamel
Department of Chemistry
516 Rowland Hall, Suite RH434
University of California
Irvine, CA 92697-2025
Tel: (949) 824-7600 Fax: (949) 824-8571
Email: smukamel@uci.edu
Web site: http://www.chem.uci.edu/~smukamel/

The University of California is an Equal Opportunity Employer
